New Age Caravans.

Designed for the road ahead.

At New Age Caravans we have always been future focused. We started life back in 2004 as New Age Frames and Designs with a view to providing a number of high-profile caravan manufacturers with a higher standard of structural framing and CNC fabricated componentry. Our passion and expertise quickly saw us grow into a key supplier to Australia's prime caravan manufacturing hub in Campbellfield, Victoria. With a reputation for premium quality, we then switched our focus from supplying the industry with frames and parts to building our own caravans, and in 2008 New Age Caravans was born.

Instead of sticking with the wooden and rustic interiors built by other manufacturers, we designed caravans with modern, apartment style interiors. Our innovative designs were such a success that we were credited with revolutionizing the Australian caravan industry. Since then, our on-going commitment to creating designs that break new ground and set new standards has seen us grow into a leading brand synonymous with quality and innovation.

In 2009 we manufactured 5 caravans a week, today we are making over 2000 a year. And while the last 10 years have been a period of rapid growth, our focus on bringing something better to the caravan market has never wavered. Along the way we have won many awards for product design, manufacturing, business operation and community work. Our strong desire to help shape the future of the caravan industry has also seen us appointed to the board of the Caravan Industry Association of Victoria.

Of course, when you're future focused you never rest on your laurels. Finding new and better ways to do things is in our company DNA and, not surprisingly, it's what caused the Walkinshaw Automotive Group to take more than a passing interest in us. Walkinshaw Group was founded by motorsport legend Tom Walkinshaw, a man renowned not just for his enviable success in F1, Le Mans Prototypes, British Touring Cars and Australian Supercars, but also for creating Australia's iconic automotive brand HSV. Anticipating the dramatic changes in the Australian automotive landscape, Walkinshaw Group was looking to diversify and bring its innovative design and engineering expertise to the caravan and RV market, and as a result it decided to purchase New Age Caravans. Needless to say, it was a match made in heaven as it has taken our design and engineering capabilities to a whole new level.

Through Walkinshaw we now have access to facilities, technology and expertise that are unmatched in the caravan industry. A seven-post rig that can replicate 1000km of rough durability testing in minutes, a dedicated clay modelling studio for conceptual and prototype design work, robotic-welded chassis operation and access to Walkinshaw's proving ground for unsurpassed rough track testing are just a few of the things we now have at our disposal to help us design the next generation of New Age caravans.

Featuring striking new looks, Walkinshaw designed and engineered chassis and a myriad of specially designed parts unique to New Age, our brand-new vans are continuing to set new standards. With all of our models benefiting from the new Walkinshaw influence, as well as more innovative designs on the way, we are perfectly positioned to make the future of caravanning more exciting and rewarding than ever before. A state-of-the-art manufacturing facility is essential if you want to build caravans, pop tops and campers that lead the way in quality and design. At New Age Caravans our state-of-the-art facility has been fitted out with cutting-edge technology that helps our R&D team create ground-breaking designs. The highly advanced technology also helps our 300+ highly skilled workers deliver an exceptional level of build quality and efficiency.

Our manufacturing processes adhere to international principles, and all our current caravans have achieved Australian Design Rule Approval – a significant achievement in the industry, and something we believe is essential. However, as an Australian company and a member of Walkinshaw Group, our processes also adhere to our own set of incredibly stringent principles. Every stage of every build is planned and pre-determined to ensure the highest quality outcome is achieved and that every van easily meets or exceeds even the toughest Australian standards.

Walkinshaw Group's broad range of businesses include manufacturing and engineering partnerships, Walkinshaw Performance, New Age Caravans, Walkinshaw Sports and the Walkinshaw Andretti United Supercars Team. Walkinshaw also provides consulting, engineering and design services to a diverse range of industry participants. The Walkinshaw Group is headquartered in Clayton, Victoria, producing over 8,000 vehicles per year and employing over 1,000 people.

The famous Australian Made logo is the true mark of Aussie authenticity. It's Australia's most trusted, recognised and widely used country of origin symbol, and is underpinned by a third-party accreditation system, which ensures products that carry the logo are certified as 'genuinely Australian'.

We started life back in 2004 as New Age Frames and Designs with a view to providing a number of high-profile caravan manufacturers with a higher standard of structural framing and CNC fabricated componentry. With a reputation for premium quality we then switched our focus from supplying the industry with frames and parts to building our own caravans, and in 2008 New Age Caravans was born.

At New Age Caravans we hold ourselves to the highest standards of build quality and after sales support. As a result, every new caravan or pop-top purchased through our dealerships comes with a 3-year bumper to hitch comprehensive manufacturer warranty.

Travel Australia with peace of mind knowing that New Age Assist is here to help. Flat tyre? Locked out of your van? Broken down? Need general assistance? As a member every new caravan comes with a 12 months New Age Assist membership, we're here to help.

Following on from complete Australian Design Rules (ADR) approval on the entire New Age range, it's another example of the lengths New Age Caravans are going to, to ensure the highest levels of quality, safety, and peace of mind for all New Age Caravan owners – exceeding what are required by the industry.

The New Age Caravans Social Club is a great way to meet like-minded adventurers, swap travel stories and make lasting friendships. As a member you'll also be able to enter special competitions to win prizes, plus you'll have access to exclusive invites, product updates and lots more!

At New Age Caravans we have a national dealer network dedicated to our many customers. Our dealers are industry and New Age experts, managing sales, aftersales service and warranty needs across all states in Australia.

Our innovative designs were such a success that we were credited with revolutionising the Australian caravan industry. Since then, our on-going commitment to creating designs that break new ground and set new standards has seen us grow into a leading brand synonymous with quality and innovation.

MANUFACTURING

At New Age Caravans our state-of-the-art facility has been fitted out with cutting-edge technology that helps our R&D team create ground-breaking designs. The highly advanced technology also helps our 300+ highly skilled workers deliver an exceptional level of build quality and efficiency.

Our manufacturing processes adhere to international principles. However, as an Australian company and a member of the Walkinshaw Group, our processes also adhere to our own set of incredibly stringent principles. Every stage of every build is planned and pre-determined to ensure the highest quality outcome is achieved and that every van easily meets or exceeds even the toughest Australian standards.

CHASSIS

First and foremost, our caravans and pop tops are the only products in the world that feature a Walkinshaw hot dip galvanized chassis. Designed and engineered by Australia's high performance experts, the chassis offers a whole new level of stability and control and unparalleled strength, durability and reliability to our range of products.

Unlike other chassis that are made from two separate parts, the Walkinshaw chassis is a single continuous frame. The chassis is robotically welded to ensure reliable and repeatable welds for every join and cross member, and the A-frame at the front of every chassis is rolled, not welded. The result is a chassis that delivers far greater structural integrity and durability.

FRAMING

Starting back in 2004 as New Age Frames and Designs, We produce all framing and construction on all products in our facilities exclusively. With over 19 years of experience, We provide the highest standards of structural framing and CNC fabricated componentry in the industry. Our passion and expertise has quickly given us the reputation as being Australia's premium caravan manufacturer.

CAPABILITIES

From our engineers, RND to our production staff, our capabilities are unmatched. We design and produce our products exclusively. Chassis design, framing, CNC componentry, upholstery is produced and constructed in our manufacturing facilities. We have exclusive testing methods and engineering teams dedicated to improving quality, towing stability and safety, from water testing bays, our own commercial weight bridge for weight accuracy and our 7-post rig simulating 1000km of rough terrain for engineering precision and testing tolerances on all models so we can manufacture the highest quality product for Australian conditions.

AUSTRALIAN MADE AND PRODUCED & THE ONLY MANUFACTURER TO OFFER A COMPREHENSIVE 3 YEAR BUMPER TO HITCH WARRANTY AND INCLUDED ROADSIDE SUPPORT WITH EVERY CARAVAN PRODUCED

STATE OF THE ART FACILITIES FITTED OUT WITH CUTTING EDGE MACHINERY AND TECHNOLOGY SUPPORTING OUR R&D TEAMS THAT CREATE GROUND BREAKING DESIGNS YEAR AFTER YEAR

MODERN CONTEMPORARY FINISHES THROUGHOUT ALL MODELS THAT IS SYNONYMOUS WITH THE NEW AGE CARAVANS NAME AND REVOLUTIONARY DESIGNS

7-POST RIG TESTING OF ROUGH TERRAIN FOR ENGINEERING PRECISION AND TOLERANCES ON ALL MODELS OFFERING THE HIGHEST QUALITY PRODUCT FOR AUSTRALIAN CONDITIONS

NO COMPROMISE WITH A 2MTR HEAD/HEIGHT CLEARANCE INSIDE EVERY MODEL

PREMIUM ELECTRICAL PRODUCTS OFFERING THE LATEST IN 12V POWER FROM AGM BATTERIES TO CUTTING EDGE LITHIUM CHARGERS & PRODUCTS

ALL FURNITURE IS PRODUCED USING THE LATEST CNC CUTTING TECHNOLOGY & MACHINERY OFFERING PRECISION CUTS AND THE MOST PREMIUM FINISH THROUGHOUT EVERY CARAVAN

ELECTRONIC SWAY CONTROL ADDED TO EVERY MODEL WITH THE ADDITION OF OUR EXCLUSIVE REAR MOULD WITH AN INTERGRATED SPARE WHEEL THAT IMPROVES TOWING STABILITY & SAFETY

PREMIUM EXCLUSIVELY ENGINEERED MERANTI TIMBER FRAMING & INSULATION OFFERING UNRIVALLED STRENGTH AND DURABILITY IN OUR CONSTRUCTION & PRODUCTION

MANTA RAY

The new Manta Ray caravan is ideal for couples or singles seeking to travel Australia in style, with all the space you need. As a standard feature, all Manta Ray caravans come furnished with an ensuite featuring shower and toilet, a fully equipped kitchen, and a spacious layout design. Once inside one of the new MY24 Manta Ray caravans and you'll notice a stylish new redesign of furniture and lighting that has eliminated the use of roof mounted downlights, lifting the aesthetic with LED strip lighting throughout.

In the dining area you'll find redesigned seats with more cushion depth and lumbar support than ever before. In the kitchen area, you'll discover a stylish new microwave surround that's been designed to keep your microwave safe and secure even when travelling over bumpy roads. A recessed cook top has now been added extending the use of the bench top for more preparation area and more space - but it doesn't stop there. The new interior also features handy reading lights with three adjustable settings that accompany a new wireless charger for the bedroom area. The Adventurer models have the Cruisemaster all-terrain XT independent suspension, combined with the Walkinshaw designed galvanised chassis, meaning the caravan is ready for all terrains.

All MY24 Manta Rays will have the Bosch Tow Assist Electronic Stability Control fitted as standard, to ensure the highest possible safety on the road, as well as lithium charger options on all 3 caravans, for those taking their trip off-grid.

The MY24 Manta Ray comes in 16ft pop-top and 19ft, 18ft and 16ft sizes full van variants, all with ensuites as standard, with all four sizes available in standard or Adventurer models.

ROAD OWL

The new Road Owl caravan is designed for Families seeking to travel Australia in style, with all the space you need. Step inside one of the new MY24 Road Owl caravans and you'll notice a stylish new redesign of furniture and lighting that has eliminated the use of roof mounted Downlights, lifting the aesthetic with LED strip lighting throughout.

In the dining area you'll find redesigned seats with more cushion depth and lumbar support than ever before. In the kitchen area, you'll discover a stylish new microwave surround that's been designed to keep your microwave safe and secure even when travelling over bumpy roads. A recessed cooktop has now been added extending the use of the benchtop for more preparation area and more space – but it doesn't stop there. The new interior also features handy reading lights with three adjustable settings that accompany a new wireless charger for the bedroom area.

Both Adventurer models have had a suspension upgrade from Cruisemaster CRS2 to Cruisemaster all-terrain XT independent suspension, which comes as standard, combined with the Walkinshaw designed galvanised chassis, meaning the caravan is ready for all terrains.

All MY24 Road Owls will have the Bosch Tow Assist Electronic Stability Control fitted as standard, to ensure the highest possible safety on the road, as well as lithium charger options on all four caravans, for those taking their trip off-grid.

The MY24 Road Owl comes in three sizes, a 18ft pop-top bunk ensuite, 19ft bunk ensuite, and a 21ft bunk ensuite, all available in standard or Adventurer models. The new Road Owl has a family focus, with a double or triple bunk and ensuite caravans ensuring the whole family is covered.

WAYFINDER

Taking Australian camper design to a whole new level, every new Wayfinder model comes with a unique Electric Roof System (ERS) that eliminates the need for a manual winch.

Simply tap on the touchscreen controller mounted in the front boot section of the camper, and your Wayfinder's ERS (electric roof system) system will raise or lower the roof for you. Of course, the advances in the new Wayfinder aren't limited to just the roof. Along with eye-catching new livery and a Walkinshaw chassis that delivers superior safety and handling, the new Wayfinder comes with a host of advances in interior design. Every model in the range features re-designed seats with more cushion depth than ever before, a long café lounge seat that gives you plenty of room to stretch out and relax, plus an impressive new kitchen with all the cabinetry. Available in 2 family models, standard or upgraded Adventurer model.
